

Hannigan Salky Getzler Agency Celebrates First Five Years With Promotion, Hire, Website Reboot

New York--July 5, 2016

Five years after leaving Russell & Volkening and setting up shop on their own, HSG Agency's partners have entered a new stage of growth, announcing Tuesday that they have promoted Danielle Burby to Agent and Foreign Rights Manager, and hired Jon Cobb as Assistant.

Burby, who has been assisting Partner Josh Getzler since February of 2013 and representing a growing stable of authors since 2014, will be off Getzler's desk and running her own list. Burby, who represents novelists Ausma Zehanat Khan and Mimi Cross, among others, will concentrate on young adult fiction, commercial women's fiction, mystery, and some fantasy and middle grade. Additionally, Burby will continue to represent HSG with the Agency's foreign co-agents. She may be reached at dburby@hsgagency.com

Replacing Burby as Assistant to Getzler is Jon Cobb. A native of Northern California, Cobb received his BA from the University of California in San Diego and, more recently, his MS in Publishing from NYU. He may be reached at jcobb@hsgagency.com

Finally, HSG announced that they have relaunched their website, www.hsgagency.com. "We felt that after five years, significant growth in both sales and staffing, we needed a bit of a fresh look," said Getzler. With HSG client Michael Soluri ("Infinite Worlds") responsible for updating the photography, Getzler says "we hope authors, publishers, and other colleagues will find our site to be user-friendly, attractive, and simple to navigate."

Operated by partners Carrie Hannigan, Jesseca Salky, and Josh Getzler, Hannigan Salky Getzler Agency is a full-service literary agency based in New York City. With more than 100 clients, HSG represents such best-selling and award-winning authors and illustrators as Anne Tyler, Geoff Rodkey, David Williams, Matthew Norman, Jonathan Fenske, Erica Perl, and E.M. Powell.
