

# PRESS RELEASE

FOR IMMEDIATE RELEASE

Avery Hill Publishing and Retrofit Comics are pleased to announce that we are teaming up to distribute each other's books to comic shops and customers in the UK and the US.

The prohibitive costs associated with distribution to other countries means that smaller publishers need to come up with innovative ideas to make their books available in different markets and we believe partnering up with like-minded publishers is an excellent model to explore.

UK customers will be able to order Retrofit Comics direct from Avery Hill Publishing in the way they would for a normal Avery Hill title, and US customers will be able to order Avery Hill comics directly from Retrofit Comics in the way they would for a normal Retrofit title.

Initially we'll be offering a selection of titles and if it proves as successful as we expect then we'll open this up to the rest of our catalogues.

*We're incredibly honoured to be associated with a partner such as Retrofit Comics. We see them as being very similar to us in the type of comics that they publish and their adaptability in changing formats dependent on what is best for the work. We're keen to explore all ways of getting our creators' books into the hands of readers wherever they may be.*

Co-Publishers, Avery Hill Publishing

*The growth of the UK comics scene over the last few years has been inspiring, and it's great to see a like-minded publisher in Avery Hill Publishing. We're very excited to be able to partner with them to help get books for both groups of our creators to the larger audience they deserve. Plus we feel our natural crossover of work will appeal to all of our fans.*
